## Art Show for March

### The University of California Section Club "Photography Section"

The University of California Section Club "Photography Section" started in the mid 1990s when several members who were photo enthusiasts wanted to meet on a regular basis to see each others' images, talk about cameras and their increasing technical abilities and take photography field trips. We are mentored by a professional photographer who provides interesting assignments and joins us in critiquing our images.

Our various photographic interests share practices common to all photographers; attention to lighting, composition and learning to use all the capabilities of our cameras. This makes time spent with our cameras and fellow members challenging and fun.
